

Product Name

SilkLeaf — Artificial Plant Cleaner

Description

SilkLeaf is a new artificial plant cleaner that enhances the look of artificial plants by gently lifting and rinsing away dust that accumulates on plant surfaces. The result is a fresher, cleaner look that you'll find amazing. SilkLeaf is easy to use and contains no oils or other materials that simply hide dust as other products do. Simply spray on and watch the dust wash away.

The active ingredients in SilkLeaf are made from organic renewable resources and are biodegradable, non-staining and safe to use.

Appearance

Clear liquid with a mild odor.

For Use On

SilkLeaf can be safely used on most synthetic and natural fibers. Always test for color fastness. Not intended for use on latex plants and flowers.

Directions

As a precaution, test a small discrete area for color fastness. Do not spray plants in direct sunlight. Protect surrounding areas from run-off with newspaper or other absorbent material. **For Normal Cleaning:** Spray each leaf evenly from 6-12" away until SilkLeaf runs off. Allow to air dry. **For Heavy Cleaning:** spray each leaf lightly with SilkLeaf to loosen buildup. Wait a few minutes, then clean as normal.

Health & Safety

As with all chemicals...KEEP OUT OF THE REACH OF CHILDREN

See MSDS for More Health and Safety Information.

Packaging

Available in 12/16 oz. Case, 12/32 oz. Case

Item Number
