

DESCRIPTION:

ADDIT is a synergistic blend of organic low-foaming nonionic and anionic surface active agents having outstanding emulsifying and soil removal properties that do not require an acidic or alkaline builder system.

ADDIT offers these distinct advantages:

- *pH balanced at 7, which can be adjusted for spotting needs.*
- *Low-foaming and in some cases will act as a defoamer by itself.*
- *Does not cause carpet "browning," or carpet fibers to become brittle.*
- *Even if used full strength — will not harm or damage carpet.*

Since ADDIT is low-foaming, a defoamer is unnecessary. If there is significant detergent residue left in the carpet from previous high-foaming shampoos, a defoamer may be added to the recovery tank.

APPEARANCE:

Clear blue liquid with citrus odor.

DIRECTIONS:

For Normal Extraction: 1 or 2 oz. per gallon of hot water.

For Heavy Soiling: A prespot is recommended.

For Greasy and Heavily Soiled Areas: Use a 10% solution of ADDIT.

For a Pre-oil Break: Use at full strength.

For those situations where the particular carpet cleans more readily at a higher or lower pH, by adding the proper organic or inorganic acid alkali, ADDIT may be easily adjusted to meet the need. The following are Sanitek's suggestions for adjusting pH, but in no way is the user limited to these methods, as any organic or inorganic acid or alkali may be used to adjust ADDIT to any desired pH:

1 gallon water + 2 oz. ADDIT + 1 oz. household ammonia = pH 10
1 gallon water + 2 oz. ADDIT + 1-1/2 oz. vinegar = pH 3

HEALTH & SAFETY:**CAUTION:**

DO NOT TAKE INTERNALLY — HARMFUL IF SWALLOWED
AVOID CONTACT WITH EYES, SKIN, AND CLOTHING

— FIRST AID —

For Eye or Skin Contact: Flush thoroughly with water for 15 minutes. If irritation persists, get medical attention. **If Accidentally Swallowed,** give milk or water to drink. If large amounts have been ingested, induce vomiting. Call a physician immediately.

See Product MSDS for more Health & Safety Information.

For Industrial and Institutional Use Only

KEEP OUT OF REACH OF CHILDREN

Do Not Store in Open or Unmarked Containers

This product is registered with local Poison Control Centers

PACKAGING:

4/1 Gallon case, 5-Gallon pails, 55-gallon drums

ITEM NO.:

240

04/98
