

BITE

SCALE & RUST REMOVER FOR TOILETS AND URINALS

DESCRIPTION:

BITE is a concentrated acid system developed specifically for removing the hard water scales and rust which build up in urinals and toilets. The scales are neutralized to a completely water soluble form that can be easily flushed away. BITE contains nonionic water- and oil-soluble surfactants which are not effected by hard water, yet effectively solubilize oils and remove dirt. This combination of ingredients produces a clean surface free from odors.

CONCENTRATION:

23% Hydrochloric acid.

APPEARANCE:

White emulsion with a viscosity like water.

FOR USE ON:

All vitreous surfaces. **DO NOT USE** on enamelled ironware or chrome. If in doubt, test in small inconspicuous area.

DIRECTIONS:

BITE may be applied directly to recessed areas by directing a fine stream through the dispenser cap, or it may be applied with applicator. Start at top of unit and rub with swab until stains are removed. Use swab in all grooves. After unit is cleaned, flush thoroughly with water. Do not allow any residue to remain in unit. Rinse swab with water after using.

HEALTH & SAFETY:

DANGER!! POISON ☠

MAY BE FATAL IF SWALLOWED

CAUSES SEVERE BURNS - VAPOR HARMFUL

(Contains Hydrochloric Acid)

Do Not Mix With Chlorine-Type Bleaches or Other Household Chemicals as Fatal Vapors May Form
