

SANITEK 18

CONCENTRATED FLOOR WAX

DESCRIPTION:

SANITEK 18 is a concentrated buffable floor wax formulated for heavy traffic areas. Manufactured from high grade light-colored waxes, SANITEK 18 is excellent for providing a waterproof durable hard finish which is extremely resistant to powdering and black heel marking.

DIRECTIONS:

For best results, it is IMPORTANT that the floor be cleaned thoroughly before applying wax.

Preparation: If floor is clean and coated with a non-buff floor finish, stripping prior to application, although recommended for best results, is not required.

Application: On a newly stripped floor, 2 base coats are recommended. Apply SANITEK 18 with a string mop or other suitable applicator. Under normal conditions, one hour dry time between coats is required. SANITEK 18 can be buffed immediately after each coat is dry.

Maintenance: Periodic cleaning with dilute solutions of Sani-Banana or Tuffkleen and occasional spray-buffing with Restor-A-Floor will maintain the gloss and appearance of SANITEK 18 and will minimize the need for recoating.

DO NOT POUR USED MATERIAL BACK INTO CONTAINER.

HEALTH & SAFETY:

CAUTION:

DO NOT TAKE INTERNALLY — AVOID CONTACT WITH EYES

— FIRST AID —

If Swallowed, give milk or water to drink. Call physician. **Eye or Skin Contact**, flush affected area with water for 15 minutes. Call physician if irritation persists.

For Industrial and Institutional Use Only

KEEP OUT OF REACH OF CHILDREN

Do Not Store in Open or Unmarked Containers

See Product MSDS for More Health & Safety Information.
